

TOP TIER DAIRY MANAGERS KNOW HOW TO GET THE MOST OUT OF THEIR REPLACEMENTS AND DRY COWS

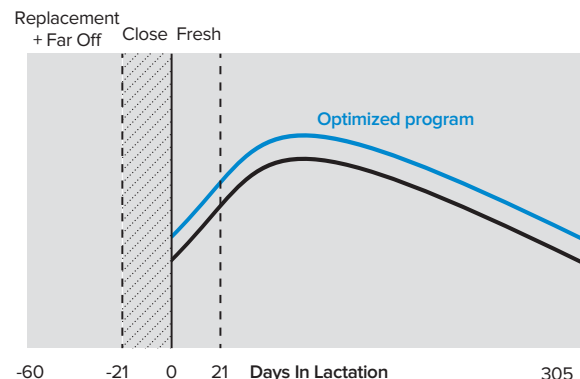

Ensure confidence in your nutrition program

AVOID THESE COMMON ISSUES

- 1 **Incorrect Formulation** → Underfeeding or overfeeding trace minerals and/or vitamins and paying too much
- 2 **Wrong feeding rates** → Wasting money feeding too much or not supplying enough

WE MAKE IT EASY FOR YOU TO FOCUS ON YOUR HEIFER AND TRANSITION COW PROGRAM

- A Build a custom formulation & program
- B Compare costs to existing program
- C Focus on transition – close up dry & fresh cows
- D Monitor for optimized nutrition

KEY OBJECTIVES:

Replacements: Health and lower days to first calving

Dry Cows: Little to no metabolic problems at calving and transition

- Higher peak milk
- Better BCS
